Education

2017-2022 **COMPUTER ENGINEERING** *Universidade de São Paulo (USP)* - São Carlos, Brazil
B.S. in Computer Engineering - in progress.

Work

Jan 2019 - **WEB DEVELOPMENT INTERN** *Crewmeister* - Munich, Germany
Jan 2020 Experience as an intern implementing new features and correcting bugs, worked with both backend and frontend in the different services from the entire system. Migrated all data from the old CRM system to a new one and integrated with the backend, implemented frontend chat integrating with the chat service and Pusher channels, added optimistic updates for the chat messages, worked with the web and mobile apps creating new pages/screens and components, with the backend services implementing new endpoints and adding tests, and created API Docs with Swagger.
- Ruby on Rails, React, React Native, Redux, Expo, Node, Express, Docker, RSpec, Mocha, TDD, GitLab CI/CD, SQL, Sequelize, MySQL, Kanban, SCRUM

May 2018 - **WEB DEVELOPER** *ICMC Júnior* - São Carlos, Brazil
Dec 2018 Experience as developer and SCRUM team member, as well as experience as Project Manager managing a small team, defining the sprint's tasks and interacting with the clients. Development of a CMS Event Platform for an university event at USP, where the event admins could add, edit and remove courses, talks and workshops and manage participan's subscriptions and the participants could access the platform to subscribe to the week's activities and choose the ones to join during the week.
- Ruby on Rails, Materialize, Kanban, SCRUM, Heroku
